# EXPRESSION OF INTEREST EXPERT REVIEWER

*Please read these Expert Reviewer Guidelines before submitting your Expression of Interest via the SmartyGrants portal.*

<https://diabetesaustralia.smartygrants.com.au/>

## OVERVIEW

Diabetes Australia is dedicated to reducing the incidence and impact of diabetes on people, health systems and society. We work with people living with or at risk of diabetes, their families and carers, health professionals, researchers, funders, other diabetes organisations and the community to positively change people's lives.

Diabetes Australia supports and develops outstanding diabetes research in Australia. We do this by funding research towards the prevention of diabetes, living well with diabetes, reducing the health and financial impact of diabetes, or finding a cure for diabetes. We foster young and upcoming diabetes researchers, and diversity in research across many areas of importance.

The Diabetes Australia Research Program has invested more than \$50 million in 800 diabetes research projects across Australia since 2008. The Diabetes Australia Research Program is made possible by the generous support of numerous generous supporters, partners, and donors.

Diabetes Australia is now calling for experienced and committed expert peer reviewers to support our upcoming research grant rounds. By contributing your expertise and careful assessment, you play a vital role in ensuring we continue to fund impactful and innovative diabetes research across Australia. Your insights help drive discoveries that improve the lives of people living with diabetes nationwide.

Reviewers will be provided with instructions on the format for reviewing applications when requested.

## EXPERT REVIEWERS – Eligibility Criteria

Expressions of Interest will be considered for Applicants that meet **ALL** of the following criteria:

- Hold a Masters by Research or PhD qualification
- A published researcher in one of the fields listed in the Table titled Area of Expertise. Note publications must be in English.
- Agree to using the SmartyGrants platform to complete all reviews allocated.
- Agree at any stage of reviewing grant applications allocated to you, to declare if you believe you have an actual or perceived Conflict of Interest in accordance with the *Australian Code for the Responsible Conduct of Research, 2018* (the 2018 Code).

## AREA OF EXPERTISE AND RESEARCH TYPE

RESEARCH TYPE	Health Services & Systems	Public Health	Clinical Research	Basic Science
---------------	---------------------------	---------------	-------------------	---------------

AREA OF EXPERTISE	
<b>Biomedical Research</b>	Beta-Cell Replacement
	Genetic and Gene Regulation
	Immunology
	Insulin Action / Molecular Metabolism
	Islet Biology / Insulin Secretion
	Lipids
	Metabolism / In Vivo (Animals)
	Metabolism / In Vivo (Humans)
	Obesity / Pathogenesis of Obesity
	Pharmacotherapy & Drug Development
<b>Clinical Research &amp; Therapies</b>	Clinical Nutrition
	Clinical Therapies
	Exercise
	New Technology
	Hypoglycaemia
	Diabetes Education
	Pregnancy
	Paediatrics
	Digital Health, Data Science & AI
<b>Complications of Diabetes</b>	Neuropathy
	Retinopathy
	Diabetic Kidney Disease
	Foot Care / Lower Extremities
	Macrovascular Complications
<b>Psychosocial, Behavioural &amp; QoL Research</b>	Psychosocial / Behavioural Medicine
	Diabetes Education (behavioural framing)
	Quality of Life & Patient-Reported Outcomes
<b>Health Systems, Population Health &amp; Policy</b>	Epidemiology
	Health Care Delivery
	Health Care Quality
	Health Economics
	Health Equity, Diversity & Inclusions
	Public Health & Community Interventions
	Implementation Science
	Diabetes Prevention & Risk Reduction
